Description

SUNSEEKER PREDATOR 75 2000

REFIT 2015

This 2000 Sunseeker Predator 75 is an impressive example of Sunseeker craftsmanship, combining the iconic Predator design, excellent performance, generous accommodation and an extensive range of onboard equipment.

Originally purchased in 2005 from her current owner, the yacht underwent an extensive refit in 2015. The refit included a complete exterior repaint, new grey silicone teak caulking, the installation of a larger bathing platform, and the inspection and refurbishment of both main engines. Further exterior maintenance has been carried out in recent years, including repainting of the hull topsides in 2025, together with the installation of a new non-slip surface on the forward deck.

The yacht is powered by twin MAN V12 D2842 engines, each producing 1,282 HP, with shaft-drive propulsion. The main engines have approximately 2,300 operating hours. Her reported maximum speed is 32 knots, with a cruising speed of approximately 25 knots.

Onboard comfort and performance are enhanced by an ITEM Mare MC2 gyroscopic zero-speed stabilisation system, a Humphree interceptor system, bow and stern thrusters, and an Idromar watermaker with a production capacity of 180 litres per hour. The yacht also benefits from a substantial 5,000-litre fuel capacity.

Accommodation is arranged for up to six guests in three staterooms, comprising a Master stateroom, a VIP stateroom and a twin guest stateroom, together with a separate crew cabin.

The galley is comprehensively equipped with premium Miele appliances, including a professional dishwasher/dryer, ceramic hob, oven and grill. These are complemented by Vitrifrigo refrigeration and ice-making equipment, deep freezers, a Techfrost chiller and a Frigonautica wine cooler.

Navigation and communication equipment has been updated with new Garmin electronics, autopilot and VHF radio in 2026. Entertainment facilities include a custom Crestron system, satellite TV, multiple televisions throughout the yacht and a brand-new JL Audio sound system with new speakers.

Additional deck equipment includes a hydraulic bathing platform, hydraulic stern door, hydraulic stern table, Besenzoni passerelle, electric rooftop and two aft capstans. The anchoring equipment includes a 50 kg Delta anchor, 100 metres of 13 mm anchor chain and a new windlass installed in 2025.

The yacht is equipped with two generators: a Fischer Panda and a Kohler. The owner has advised that the Fischer Panda's engine is scheduled to be replaced with a new Kubota engine.

Combining an extensive refit history, continued investment in equipment and a comprehensive range of onboard amenities, this Sunseeker Predator 75 represents an interesting opportunity for buyers seeking a classic performance yacht with generous accommodation and substantial cruising capabilities.

MAIN SPECIFICATIONS

Builder: Sunseeker
Model: Predator 75
Year: 2000
Length Overall: 22.10 m
Beam: 5.43 m
Draft: 1.58 m
Flag: Italy
Gross Tonnage: 41.78 GT
Hull Colour: Navy Blue
Superstructure: White
Designer: Sunseeker

PERFORMANCE & CAPACITIES

Maximum Speed: 32 knots
Cruising Speed: 25 knots
Reported Fuel Consumption: 380 litres/hour
Fuel Capacity: 5,000 litres

Fresh Water Capacity: 900 litres
Black Water Capacity: 60 litres

ENGINES & PROPULSION

- 2 × MAN V12 D2842
- 1,282 HP each at 2,300 RPM
