## Description

The Storebro Royal Cruiser IV/34 was one of the most successful models of Storebro with 800 units built and it consolidated the excellent reputation of the yard. The ship was marketed with features like safety and comfort. The quality of the boat was far better than boats of similar size and layout. No other manufacturer processed wood so perfect, so rich and so elegant as Storebro. Our boat is under second Greek owner use since 1983, kept in a very good condition, now lying in the Greek waters and she is looking for a new owner. She has two cabins with two separated toilets and really pleasant cockpit area to sail and enjoy friendly gatherings. Mahogany wood is the basic construction material of these boats, which makes them unique and beautiful.
