Description

Despite this being a 1993 model of the Princess 366 Riviera, the only thing from 1993 that remains on this vessel is its hull. Everything else is brand new. Bought by its current owner in 2021, in 2022 it had replaced old parts, received repairs and customizations with a total cost just short of 100,000 euros. As a result, this flagship 366 Riviera has new twin engines fitted, and the sterndrives are brand new !!! fin stabilizers, 3 service batteries (105Ah), 1 Onan generator and bow thruster. Also added by the owner is a 1000W solar panel above the main deck's bimini and an air conditioning unit. All this, in combination with the new Tohatsu outboard engine for the 3,20m hypalon tender, make this vessel fit to be quite literally a floating home.
