## Description

The Leopard 40 is a sailing cruising catamaran designed for comfortable coastal and offshore adventures. Measuring 40 feet in length, she features a lightweight yet robust construction with twin hulls, offering responsive handling and a rather strong performance for a production multihull of its time. This model strikes an excellent balance between living space and sailing capability, making it well-suited for couples, families, or liveaboard enthusiasts—the current layout of the interior is the owner-friendly 4 cabin, 2 head layout. She provides good seakeeping qualities suitable for moderate bluewater cruising, combining ample interior volume, practical deck areas, and solid sailing characteristics. It is a classic catamaran from the mid-2000s era known for balancing comfort, space and solid sailing performance.
